

Automotive Rubber Ring Gasket Black

KINGTOM is a major manufacturer and supplier of rubber products in China. Automotive Rubber Ring Gasket with oil resistance, acid and alkali resistance, cold and heat resistance, aging resistance and other properties, can be directly cut into various shapes of sealing gaskets, widely used in medicine, electronics, chemical, antistatic, flame retardant, food and other industries.

KINGTOM is a major manufacturer and supplier of rubber products in China. **Automotive Rubber Ring Gasket** with oil resistance, acid and alkali resistance, cold and heat resistance, aging resistance and other properties, can be directly cut into various shapes of sealing gaskets, widely used in medicine, electronics, chemical, antistatic, flame retardant, food and other industries.

Product Parameter of the Automotive Rubber Ring Gasket Black:

- ①Product name: **Automotive Rubber Ring Gasket Black**
- ②Material: EPDM NBR Silicon or Can Custom
- ③Logo: Can Custom
- ④Size: Can Custom
- ⑤Can Custom: Black or custom
- ⑥Application: Automotive
- ⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧Delivery: 30 -50days after sample confirmation
- ⑨Sample: 25-30 days
- ⑩Payment: 30% deposit, 70% payment before shipment
- ⑪Package: PE bags, Cartons,Pallet
- ⑫Payment Terms: T/T,L/C and so on.
- ⑬Shipment Way: Vessel,Air,Express etc.

Product Feature AND Application of the Automotive Rubber Ring Gasket Black:

Corrosion resistance: seawater, oil, acid, alkali and other chemicals corrosion, antibacterial, non-toxic, tasteless, pollution-free, elastic and wear resistance, air tightness, harmless to human body.

Water resistance of rubber gasket: sealed bubble structure, no water absorption, moistureproof, good water resistance. Corrosion resistance: seawater, oil, acid, alkali and other chemicals corrosion, antibacterial, non-toxic, tasteless, no pollution.

Rubber gasket processing: easy to hot pressing, cutting, gluing, laminating and other processing.

Shockproof rubber gasket: high resilience and anti-tension, high toughness, good shockproof, anti-slip, buffering performance.

Rubber gasket insulation: heat insulation, wear resistance, cold and low temperature performance is excellent, can withstand cold and exposure. Sound insulation: closed bubble hole, sound insulation effect is good.
